

IDEA-: Generally some people wants books(like novels) only for a limited amount of time,buying them is a redundant expenditure and if bought ,book will not be of any use after some time. In either of these situations , our website can be of great use to them.

So our website is a platform for people(especially students or bookworms,booklovers) to rent books for a stipulated amount of time and to donate books which they no longer use.

SCOPE:

1. People can login or sign-up into their accounts to order or donate books
- 2.Once they are logged,they can search the books(by author name,book name,edition,publication etc) or donate books
3. For renting the books,people have to select the amount of days they want to rent the book.They can also extend their deadline by paying some extra money.
4. People have to pay a fine if the book is tampered or lost.
5. For donating a book they have to submit details of the book.
